ACKNOWLEDGEMENTS

We would like to express our sincere gratitude to Planning, Design, Monitoring and Evaluation Division of Department of Irrigation for giving us the opportunity to carry out the present job of the *Development of Database for Irrigation Development in Nepal (DDIDN)*.

The Consultants extend thanks to the Er. Sudhir Man Baisyat, Deputy Director General, Er. Rajendra Prasad Adhikari, Senior Divisional Engineer and Er. Basu Dev Timilsina DoI for their valuable suggestions and guidelines during the preparation of this study.

We would like to express our heartily appreciation to Mr. Pratap Singh Tater, Senior Divisional Hydrologist, DoI and GWFOs, Ground Water Resources Development Project and Er. Niranjana Dev Pandey, Project Manager, Non-Conventional Irrigation Technology Project, DoI. for their co-operation and support for the Report.

We are thankful to Agricultural Development Bank, Nepal and CARE Nepal, GTZ Nepal and SNV Nepal for their cooperation and sincere help in providing data and informations. We are also thankful to all who helped us during data collection of Irrigation systems.

**CENTER FOR ENGINEERING RESEARCH AND DEVELOPMENT
(CERD)**

1. INTRODUCTION

Department of Irrigation (DoI), for the last 10 years, has been working in various circumstances for the purposeful implementation of Management Information System within its organizational capabilities as part of Information System Planning. So far, it has been successful in making the staffs feel the need of computer and its capabilities for enhancing their day to day work. The use of computers has been limited mostly to preparing reports, tables, charts and letters and in few cases storing these outputs for future uses. Presently data on Irrigation Development in Nepal have been prepared by different divisions and sections of the Department on the basis of as and when needed. Due to the lack of central database system, the authenticity and integrity of such data has been in question at times. Thus there is a great need of central database system for consistent and proper data sets for the proper planning and development of the nation's irrigation systems. Hence database storage, retrieval and analysis has become more and more important and relevant nowadays for better planning of the nation's irrigation development and also for information dissemination on what the department has been doing over the years.

For the purpose of updating the Data Base for Irrigation Development in Nepal (DBID), on a regular basis a "DBID System" has to be developed so that, every year's data can be entered and updated reports can be printed and published. Department of Irrigation, Management Information System Section wishes to engage local consulting firms to develop a 'DBID System' for its regular update of data.

2. OBJECTIVE OF THE STUDY

The objective of study will be as follows;

- Review and update (if data set is missing) of existing DBID published in 1997.
- Update the same with the new data set up to fiscal year 2005/06 provided by Department of Irrigation, ADB/N, NGOs, INGOs and other agencies if any.
- Submit the new document of DBID in hardcopy and printable form.

3. SCOPE OF WORKS

The scope of works limits to develop a part of module of Management Information System, DBID Application Module. /

- Review existing DBID published in 1997,
- Make appropriate updates in DBID in exiting application, which will be beneficial to the organizational needs
- The Data on Standard tables in existing DBID should be verified with additional Data as required.
- Install all the data of the existing DBID up-to 1995/96 and update with the current data set till FY 2005/06.
- Consultant will also obtain the data set from ADB/N and other NGOs/INGOs, which are involved in developing irrigation systems and include it in updated DBID.

4. Data incorporated from Different Agencies

4.1 Surface Water Irrigation

In the existing DBID, the Sub-projects under Irrigation Line of Credit were on-going as well as completed. To avoid duplication and confusion, the Sub-projects data are replaced as per ILC Project Completion Report . As Nepal Irrigation Sector Project (NISP) was implemented as continuation of ILC project, the list of ongoing sub-projects of ILC are omitted. The completed and ongoing sub-projects under NISP are entered from its PCR.

Similarly, the status of on-going and completed projects under Irrigation Sector Project (ISP) is omitted from the existing DBID and entered as per PCR of ISP. The on-going project of Second Irrigation Sector Project is also omitted from existing DBID and entered as per PCR of SISP.

Data of the IDP-MWR Project is entered from its PCR. This project was started on 1998 and completed on 2004.

After completion of SISP and NISP, one new project namely MIP is introduced and being implemented to cover the rehabilitation work of Irrigation system of Nepal. The data of this project is collected from DOI and entered in DBID.

In existing DBID, the data provided by ADB/N was entered as project-wise. But, at present, the data provided by ADB/N is district-wise and the name of project is also not provided. The command area development work under surface irrigation system by the ADB/N is limited after the 1995/96, so the recent data is not incorporated, which may mislead.

4.2 Ground Water Irrigation

In existing DBID the details of DOI Ground Water Projects are not listed. The project-wise data of Sallow Tubewell and Deep Tubewell are collected from the Ground Water Field Offices and worked out with the help of Senior Geo-hydrologist of DOI

The recent district-wise data on Shallow Tubewell is collected from Agricultural Development Bank/Nepal and incorporated to the DBID, where as the data of Agricultural Development Project, Janakpur is taken from the existing DBID.

4.3 Non-Conventional Irrigation

The data on Non-Conventional Irrigation Project are updated by collecting the data from Non-Conventional Irrigation Technology Project of the Department of Irrigation.

5. Irrigation Database Compilation

The following tables are developed for compilation of Irrigation Database.

Table-1 Ecological and Physiographical Division of the Districts of Nepal

Table -2 Present Status of DOI Surface Projects
(Chapakot I.P, Rampur Phant I.P. and Rainastar I.P. are rehabilitated under NISP program but it is still being operated under Project Joint Management, hence these are omitted from DOI project)

- Table -3 Command Area of Surface Farmer’s Managed Irrigation Scheme. (Agency Assisted)
(For FMIS, the data up-to 1988, data after 1988 up-to 1994/95 is included along with date from 1994/95 to 2005/06 in this table. This table includes the data of NISP, ILC, ISP, SISP, ERIP, IDP-MWR and MIP along with the previous data)
- Table -4 Summary of total command area of Surface Farmer Managed Irrigation Scheme up-to 2005/06 (Agency Assisted)
(The table includes the summary of new and rehabilitation project from all agencies executed projects.)
- Table -5 Status of Shallow Tubewell in Nepal up-to 2005/06
(Up-to-date status of Shallow Tubewell is collected from DOI, Ground Water Division and ADB/N. The data of ADPJ is taken from existing DBID.)
- Table -6 Status of Deep Tubewell in Nepal up-to 2005/06
- Table -7 Present Level of Irrigation Development
(All DOI, FMIS and Non-Assisted Project of Surface Water, Shallow and Deep Tubewell of DOI and other Agency are compiled in this table.)
- Table -8 Non Conventional Projects
(District-wise data of existing DBID is up-dated from the data provided by NITP – DOI)
- Table -8.1 Detail of Non Conventional Projects
(Details of data provided by NITP – DOI)
- Table -9 Planned vs Developed Command Area
(This table includes the summary of all Surface Water Projects such as planned, developed and yet to be developed GCA and CCA. (excluding Non-Assisted FMIS)
- Table-10 Summary of Net Command Area (NCA) of Surface Irrigation System
(Summary under development region , ecological region, project type and agency’s name)

6. Highlights of Irrigation Development

The highlight of irrigation development till 2005/06 has been summarized in followings

Status of Government and Non-Governmental assistance in Surface and Ground water Project and Non-assisted FMIS

6.1 Total Area vs Irrigated Area

| Description | Area (ha) | Table |
|----------------------|-----------|----------|
| Total Area | 264,1742 | Table -7 |
| Total Irrigable Area | 1,765,840 | Table -7 |
| Total Irrigated Area | 1,251,406 | Table -7 |

6.2 Scheme-wise Irrigated Area

| Scheme | Command Area (ha) | Table |
|----------------------------------|-------------------|----------|
| Surface Water | 960,237 | Table -7 |
| Ground Water | 278,158 | Table -7 |
| Non Conventional Projects | 13,011 | Table -7 |
| Total Irrigated Area(Ha.) | 1,251,406 | |

6.3 Present Status with CCA for Surface irrigation

| Agency | Command Area (ha) | Remarks |
|--|-------------------|-----------|
| DOI Project | 314,521 | Table - 7 |
| Agency Assisted FMIS Project, New | 38,169 | Table - 7 |
| Agency Assisted FMIS Project, Rehabilitation | 295,258 | Table - 7 |
| Non Assisted FMIS | 312,289 | Table - 7 |
| Total | 960,237 | |

6.4 Present Status with CCA for Ground Water irrigation

(A) Shallow Tubewell

| Agency | No | Command area (ha) | Remarks |
|--|---------------|-------------------|-----------|
| DOI Project | 14,427 | 53,964 | Table - 5 |
| Agricultural Development Project, Janakpur | 2,593 | 18,151 | Table - 5 |
| ADB N | 50,685 | 1,67,943 | Table - 5 |
| Total | 67,705 | 2,40,058 | |

(B) Deep Tubewell/ Medium Tubewell

| Agency | No | Command area | Remarks |
|--|------------|---------------|-----------|
| DOI Project | 630 | 34,455 | Table - 6 |
| Agricultural Development Project, Janakpur | 81 | 3,645 | Table - 6 |
| Total | 711 | 38,100 | |

6.5 Present Status with Size of Project for Surface irrigation

| Project Category | DOI | FMIS | Total CCA (ha) |
|------------------|----------------|----------------|----------------|
| Major | 269,310 | 31,800 | 301,110 |
| Large | 11,613 | 16,710 | 28,323 |
| Medium | 30,978 | 220,670 | 251,648 |
| Small | 2620 | 64,247 | 66,867 |
| Total | 314,521 | 333,427 | 647,948 |

Criteria:

| Project | Terai | Hill |
|---------|-------------------------|------------------------|
| Major | CCA > 5000 ha | CCA > 1000 ha |
| Large | 2000 ha > CCA > 5000 ha | 500 ha > CCA > 1000 ha |
| Medium | 200 ha > CCA > 2000 ha | 50 ha > CCA > 500 ha |
| Small | CCA < 2000 ha | CCA < 50 ha |

6.6 CCA under Ecological Regions (Including Assisted FMIS)

| Category | Surface Water | | | Ground Water (ha) | Total (ha) |
|--------------|----------------|----------------|----------------|-------------------|----------------|
| | DOI | FMIS | Total (ha) | | |
| Terai | 295,698 | 209,815 | 505,513 | 277,426 | 782,939 |
| Hill | 16,963 | 100,531 | 117,494 | 732 | 118,226 |
| Mountain | 1,860 | 23,081 | 24,941 | | 24,941 |
| Total | 314,521 | 333,427 | 647,948 | 278,158 | 926,106 |

Note: The Command area in Ground Water in Hill is to be referred as Inner Terai.

6.7 CCA Under Development Regions (Excluding Non-Assisted FMIS)

| Region | Surface Water | | | Ground Water (ha) | Total (ha) |
|--------------|----------------|----------------|----------------|-------------------|----------------|
| | DOI | FMIS | Total (ha) | | |
| Eastern | 128,070 | 78,436 | 206,506 | 91,037 | 297,543 |
| Central | 123,412 | 95,163 | 218,575 | 83,636 | 302,211 |
| Western | 34,681 | 61,388 | 96,069 | 47,461 | 143,530 |
| Mid-Western | 6,122 | 69,353 | 75,475 | 23,511 | 98,986 |
| Far Western | 22,236 | 29,087 | 51,323 | 32,513 | 83,836 |
| Total | 314,521 | 333,427 | 647,948 | 278,158 | 926,106 |

6.8 Monsoon vs Year Round

| Category | Surface Water | | | Ground Water (ha) | Total (ha) |
|-----------------------|----------------|----------------|----------------|-------------------|----------------|
| | DOI | FMIS | Total (ha) | | |
| Monsoon (MS) | 142,309 | 38,352 | 180,661 | | 180,661 |
| Year Round (YR) | 172,212 | 295,075 | 467,287 | 278,158 | 745,445 |
| Total of Nepal | 314,521 | 333,427 | 647,948 | 278,158 | 926,106 |

For 866 FMIS Projects CCA 82724 ha, which have no MS or YR status available, CCA is included in Year Monsoon and Year Round as per its weight-age.

6.9 ED vs ID and CAD

| Category | Surface Water | | | Ground Water (ha) | Total (ha) |
|--------------|----------------|----------------|----------------|-------------------|----------------|
| | DOI | FMIS | Total (ha) | | |
| ED | 110,440 | 78,173 | 188,613 | - | 188,613 |
| ID | 47,958 | 255,253 | 303,211 | 278,158 | 581,369 |
| CAD | 156,123 | 1 | 156,124 | | 156,124 |
| Total | 314,521 | 333,427 | 647,948 | 278,158 | 926,106 |

For 533 FMIS Projects CCA 64905 ha, which have no ED or ID and CAD status available, CCA is included in ED and ID by its weight-age.

Criteria:

Extensive Development (ED):-

All schemes having primary and secondary canal but lacking tertiary canal system, service block size 300 to 500 ha

Intensive Development (ID) :-

All schemes having primary and secondary canal and tertiary canal system, service block size 30 to 50 ha

Command Area Development (CAD) :-

All schemes ID plus quaternary, service block size 3 to 5 ha

6.10 Planned vs Developed Command Area

| Category | No of Project | Planned GCA (ha) | Planned CCA (ha) | Developed GCA (ha) | Developed CCA (ha) |
|-----------------|----------------------|-------------------------|-------------------------|---------------------------|---------------------------|
| FMIS | 3,005 | 448,084 | 367,481 | 406,788 | 333,427 |
| DOI | 179 | 389,799 | 314,921 | 389,267 | 314,521 |
| Total | 3,184 | 837,883 | 682,402 | 796,055 | 647,948 |

TABLE 1
Ecological and Physiographical Division of the Districts of Nepal

| District | Zone | Development Region | Ecological Belt | Total Area (Ha.) | Physiographic Division (% of area) | | | | | | | |
|-------------------------|------------|--------------------|-----------------|------------------|------------------------------------|-------------|-------------|-----------------|-------------|---------------|-------------|-------------|
| | | | | | Terai | Siwalik | | Middle Mountain | | High Mountain | | High Himal |
| | | | | | | valley | Slope | Valley | Slope | Valley | Slope | |
| Eastern Region | | | | | | | | | | | | |
